diamo forma al futuro

design made in italy

innovative surfaces

NIKKOLOR ITALIA

the tradition of excellence

Identity

We don't seek volume. We seek balance between chemistry, aesthetics, and durability. For us, innovation isn't fashion. It's responsibility.

What drives us

Respect for the material, control and traceability of each batch, direct dialogue with those who apply and design.

Who we are

Nikkolor Italia is an artisan company born from a passion for materials and research. In our laboratory, each formula is created in-house, carefully tested, and balanced. We don't follow industrial logic: each product is conceived, created, and checked manually.

Custom Production

We don't produce from stock. Each order is prepared fresh, on the spot, guaranteeing the customer a vibrant and stable product. This choice represents our idea of quality: freshness as a synonym for excellence.

Artisan Method

Our method combines manual experience and technical knowledge. Every phase, from mixing to packaging, is carried out by people, not machines. There are fewer than ten of us, but we pay attention to every detail like precision manufacturing.

Philosophy

We believe that innovation isn't about producing more, but producing better. Each of our decorative systems is the result of genuine research, not trend-driven. This is how Microcem-FB, ArchiMetal, Hiridium, Cemento 3D, Ardhea, MarmUra, Etna, Marblex Mirror, Terra Veneziana, and more were born: materials with identity and history.

Our mission

To bring Italian craftsmanship into the future. Every day we work to combine the science of materials with the sensitivity of manual labor. For us, innovation means respect for the material, attention to detail, and passion for the result.

Ardhea

Abbiamo tenuto la sua anima, e gli abbiamo dato calore, Ardhea non è un effetto, è un'esperienza tattile: marmo vellutato, soft touch, termico.

We kept its soul, and gave it warmth, Ardhea is not an effect, it is a tactile experience: velvety marble, soft touch, thermal.

Sintesi ideale tra tecnologia e bellezza materica, che unisce continuità e raffinatezza.
An ideal synthesis of technology and material beauty, combining continuity and refinement.
